REFEDS Assurance Framework

"To manage risks related to federated access to their services, some Relying Parties in research and education federations must decide how much confidence they need in the assertions made by the Identity Providers [..]

RAF Components

Identifier Uniqueness	A method to communicate to the RP that the user's identifier (such as a login name) is unique, and is only bound to one identity in the CSP's context.	ID/unique ID/eppn-unique-no-reas sign	
Identity Assurance	A method to communicate to the RP how certain the CSP was at enrollment time of the real-world identity of the Person to whom the account was issued.	IAP/low f IAP/medium IAP/high	
Attribute Assurance	A method to communicate to the RP regarding the quality and freshness of attributes (other than the unique identifier) passed in the login assertion.	ATP/ePA-1m ATP/ePA-1d	

REFEDS Authentication Profiles: SFA and MFA

REFEDS Single Factor Authentication Profile Publication History: **Version History** v1.0 Published 28 August 2018 (current) Reference pdf https://zenodo.org/record/5113499 DOI DOI 10.5281/zenodo.5113499 (cc)) BY-SA This work is licensed under a Creative Commons Attribution-ShareAlike 4.0 License International License.
